

Online Proctoring with Integrity & Humanity

What is the Honorlock Difference?

Honorlock strives to bring integrity, humanity, confidence, and positive outcomes to the online proctoring experience. Here's how:

1. Blending live human Proctors and AI

As online learning and test-taking modalities become increasingly more common, students are met with new challenges that can heighten test anxiety and make an impact on their mental health. Proctoring doesn't need to add to the stress of test-taking.

- Honorlock upholds the integrity of online exams with proctoring that's human reviewed and backed by powerful AI.
- Our proctoring software, along with our trained proctors, is designed to take the technical online exam experience and make it simple, easy, and human.
- Effective proctors are there to help support students during exams and ensure that they're set up for success.

2. Dedication to Academic Integrity

Our dedication to Academic Integrity is driven by humans and backed by AI. A continuous feedback loop of data from your students, faculty, and our proctors produces iterative improvements that reduce false flags and aim to improve the student experience.

“ Honorlock has provided excellent support in scaling our needs and meeting our requirements for faculty training. They have been an excellent partner due to their open communication, privacy policies, and the implementation of their state-of-the-art technology.”

– Nestor Pereira,
Dean, Business Affairs,
Broward College

3. Ease of Use

Empower your students by offering convenient and flexible online exams while making it easy for faculty to set up proctored online exams, choose proctoring features, and make accommodations.

“Students like that Honorlock launches directly out of Canvas and that there is nothing that they have to do differently. It’s seamless, it’s quick, the equipment checks are faster than our previous solution.”

– Former Director of the University Testing Center,
Colorado State University

4. Implement online proctoring in a few days, not months.

We make implementation quick and easy. Implementation is streamlined and expertly managed by our team. We’re flexible and can accommodate the needs of your institution in terms of initiating services and completing the project.

5. 24/7/365 Support for Faculty and Students

Just like our exam proctoring system, our support is on-demand 24/7/365. From implementation to proctoring online exams, our US-based, trained support agents are available via live chat and email. Support access is built into our platform in real-time—**meaning that you’ll speak with a real person.**

6. Ongoing Training and Resources

In addition to thoroughly training your team, Honorlock provides comprehensive training resources such as quick reference guides, help articles within our Knowledge Base, videos for faculty and students, and monthly live training webinars. These guides and tutorials are effective as a means of providing ongoing training for new faculty and/or administrator users.

Honorlock's Key Features

Keeping pace with modern-day test taking

Live Pop-In™

We combine the benefits of AI software with those of live remote proctors to help protect online exams, reduce student test anxiety, empower students and faculty.

Search and Destroy™

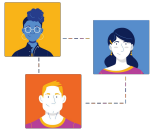

Our technology searches the internet to identify exam questions that have been shared online and if leaked exam questions are found, instructors are given simple steps to take control of their exam integrity.

Multi-Device Detection

Our software can detect when a student attempts to access test bank content using a cell phone, tablet, or laptop during the online proctored assessment.

Honorlock makes online proctoring simple, easy, and human.

Our People

Our goal is to make proctoring simple and easy for test-takers, instructors, and institutions. In a virtual world, it's our personal touch that sets us apart.

No Scheduling Required

Our proctoring solution is available to students and faculty 24 hours a day, 7 days a week, 365 days a year.

World-Class Customer Service

We offer the best 360° experience in the online proctoring industry for students, faculty, and institutions.

Ease of Use

Faculty and students agree—we are the easiest proctoring solution to use.

Proctors Focused on Student Success

Through thoughtful training, our proctors connect with students as educational partners to make the exam-taking environment as comfortable as possible.

Commitment to Privacy & Security

Proctoring with Honorlock is 100% browser based using a Google Chrome extension.
